The Training School
with Today's Technology

THE SCHOOL

Established in 1996, the International School of Aerospace NDT Limited (ISA) holds full BINDT Accreditation, BINDT Outside Agency Approvals and British Accreditation Council (BAC) accreditation. We continue to supply high quality training to companies and airforces from over 70 countries worldwide.

TRAINING SERVICES

Courses

At ISA we take pride in being able to offer our customers training in the latest NDT technologies. In 2010 we were the first school in the UK to offer BINDT accredited courses in Aerospace Thermography, conducted by the Institute of Infrared Thermography. Last year we introduced Phased Array to our course syllabus and this year we are once again expanding our scope of training by the addition of a new fully qualified full time training instructor.

School Facilities & Equipment

The International School of Aerospace NDT Limited is conveniently situated at Norwich International Airport, just a short taxi ride away from Norwich city centre, the thriving historical hub of the east.

With our purpose built Radiographic and Isotope Exposure Room, automatic film processing facilities and laboratories utilising state of the art equipment supplied by leading manufacturers, we make it our priority to offer students hands-on experience with the latest NDT equipment.

Classrooms come equipped with computer and WiFi access, as well as air-conditioning to ensure a comfortable learning atmosphere for all our students.

Light lunches are available in our student lounge, or alternatively in nearby pubs and cafes. As a service to our customers we offer corporate rated accommodation, from guest houses to 5 Star Hotels which we are always happy to arrange for you.

"Our aim at ISA is to make learning as enjoyable as possible; student welfare is therefore always of the highest priority."

Sandy Lerski - Principle

EXAMINATION SERVICES

Corporate Qualifications

Examinations are available based on the requirements of either SNT-TC-1A, NAS 410 or BSEN 4179, and our customers' own Company Written Practice.

Central Certification

PCN examinations at Level II and III are available in Penetrant, Magnetic Particle, Eddy Currents, Ultrasonics, Radiography and Radiation Safety. Examination results are available within 10 days.

We ensure the integrity of all approval systems which are administered by International School of Aerospace NDT by using independent Level III examiners

On-Site

Our courses and examinations can also be provided on-site at customers' premises by our team of Level III instructors.

CONSULTANCY SERVICES

In addition to our training services we continue to assist our customers in many other areas of NDT including:

- Level III Consultancy services
- Preparation of Written Practices.
- On-site courses and certification.
- Internal Audits.
- Writing and Approval of NDT Procedures.

P2	05 Mar – 09 Mar
P3	16 April– 20 April
P4	11 Jun – 15 Jun
P5	06 Aug – 10 Aug
P6	01 Oct – 05 Oct
P7	12 Nov – 16 Nov

Magnetic Particle Level I/II 5 Day Course £675.00

M1	16 Jan – 20 Jan
M2	12 Mar – 16 Mar
M3	23 April – 27 April
M4	18 Jun – 22 Jun
M5	13 Aug – 17 Aug
M6	08 Oct – 12 Oct
M7	19 Nov – 23 Nov

Eddy Current Level I/II 10 Day Course £1350.00

E1	23 Jan – 03 Feb
E2	19 Mar – 30 Mar
E3	30 Apr – 11 May
E4	25 Jun – 06 Jul
E5	20 Aug – 31 Aug
E6	15 Oct – 26 Oct
E7	26 Nov – 07 Dec

Ultrasonic Level I/II 10 Day Course £1350.00

U1	06 Feb – 17 Feb
U2	02 Apr – 13 Apr
U3	14 May – 25 May
U4	09 Jul – 20 Jul
U5	03 Sep – 14 Sep
U6	29 Oct – 09 Nov
U7	10 Dec – 21 Dec

Radiographic Inspection Level I/II 10 Day Course £1350.00

R1	20 Feb – 02 Mar
R2	28 May – 08 Jun
R3	17 Sep – 28 Sep

Thermographic Inspection Level I/II 10 Day Course

Price on request

IRT1	6 - 17 Feb
IRT2	14 - 25 May
IRT3	13 - 24 Aug
IRT4	26 Nov - 7 Dec

Full Course – 5 Methods

09 Jan – 02 Mar
16 Apr – 08 Jun
06 Aug – 28 Sep

Approval Examinations Levels I, II and III are £195 each.

PCN Initial/Renewal examination prices on request.

Daily rate for recertification/refresher is £135 per student.

Other courses scheduled by arrangement:

Introduction to Phased Array - NDT Overview/Management Appreciation - Bond Testing - Operation of the Bondmaster - Film Interpretation - Phase Analysis - Wheel Inspection - Metallurgy
